NEW BUTCHER AT JOE'S MKT.

Daly City has a new butcher this week at Joe's Market, 6001 Mission street, in Stephen Marelich who promises to be one of Daly City's most genial and progressive merchants.

Marelich comes to Joe's market with a wide and substantial background in the butcher business. He has been successfully engaged in business in San Francisco for many years and is particularly well known in the Excelsior district where he was in a fine shop at Persia and Mission streets.

The new butcher opened his department for business yesterday morning. Best quality meats, smiling service, and free delivery are offered customers.

Along with Joe Zacheo, proprietor of the grocery, fruit and vegetable departments at Joe's Market, Marelich will operate a first class complete food mart.

Watch the Daly City Shopping News every week for special money saving bargains at Joe's Market.

Boy Weather Prognosticator

Interested in weather, a 14-year-old boy, Roger Keener, a Boy Scout, of Canaan, Conn., has set up his own weather bureau in his home and his predictions have been quite accurate, neighbors say. He has all the necessary instruments for recording wind, humidity, barometer pressure and precipitation. Roger became interested in weather through his scouting work and hopes to go on with his study, expecting to make it his profession later on in life.

Smoking Dog

One of the reasons Spokane County Superior Judge Fred Witt would not consider appointment to the Supreme court for which he was recently prominently mentioned was that his wife preferred to remain in Spokane. And one of the reasons that Mrs. Witt preferred to remain in Spokane was that she feared the change of climate might not be good for her 10-year-old pet fox terrior Tiny. Tiny is a fastidious animal in that he cannot start the day, Mrs. Witt says, without a cup of coffee well seasoned with sugar and cream, after which he demands a cigarette.

"Four Mothers" To Play At D. C. Theatre

The four mothers and their babies who take the limelight in "Four Mothers," latest Lemp family saga. The charming drama will be shown at the Daly City theatre, Sunday, Monday and Tuesday.

Speedy Languages

Frenchmen speak the speediest language in the world, emitting 350 syllables a minute. Japanese rank second fastest, Germans third, Chinese fourth, and Italian fifth. English is comparatively slow with its 220 syllables a minute, but South Sea natives have the slowest tongue of all, emitting only 50 syllables a minute in ordinary conversation.

Special Stamp

The National Society of Daughters of the American Colonists has asked the post office department to issue a special stamp to honor Mary Ball, mother of George Washington.

Pays Debt

L. B. Evans, a farmer of Alberta, Canada., pays his debts even if they are 15 years old. He sent a check for $90 to the city of Los Angeles for his hospital bill in 1925, at the pest house. The city wrote back that the treatments were free, but Evans refused to take back the money.

Still Good

Veal canned for the 1824 artic expedition of Sir William Perry was found in perfect condition when opened recently in the museum of the Royal United Service institution in London.

Wrong Training

Colleges continue to train students for jobs that no longer exist, Chester G. Moore, chairman of the board of the Central Motor Freight association, recently told a conference at the University of Illinois. And all the time, he said, jobs as salesmanager, accountants, office managers, solicitors, traffic managers, and tariff experts—in the trucking industry, are going begging.

Diet Changes

Since 1917 the American public has changed its diet by increasing the use of salads, malted milk, whole milk, fresh fruit, canned fruit and fresh vegetables.

Hints For The Housewife

By Marion Cunningham
Home Economist

THERE'S a trick to making the kind of coffee that really warms and satisfies the inner man, a trick that any housewife can master. Too many of us make coffee carelessly, and the results are quite naturally mediocre. So here are some simple rules for making truly delicious coffee, rules that every woman should conscientiously follow.

Most important is that everything about your coffee be fresh. The pot itself should be scrubbed and scoured like new. The water should be cold and freshly-drawn. And the coffee beans should have all their original flavor. It's not enough to buy coffee in a vacuum sealed container if you don't reseal the container tightly after each using. That's why it's a good idea to buy coffee vacuum-packed in scientifically developed glass jars with flat screw tops. Unlike key or knife openers, these tops can be removed intact and snugly re-fitted to the jar afterwards. This is important because it is moisture from the air creeping into a container that robs coffee of its flavor.

Marion Cunningham

Good coffee requires two essentials: precise measurement of ingredients and fresh making.

Another way of giving your coffee a distinctive flavor, which will please your family and the guests that come to your home, is to try serving it with honey as a sweetener instead of sugar. Honey is put up in such attractive glass containers now that you can just set a jar on the coffee tray along with the cream pitcher. Not only does it give the coffee an extra touch of goodness, but women like it because it is less fattening than any other sweets. You'll find that it dissolves quickly in the steaming coffee.

Colds Don't Last

Scientists say the common cold lasts only three or four days and gives immunity for three months. Longer illnesses are due to secondary infections.

House of Cotton

The Farm Security administration is conducting experiments in the use of cotton as a building fabric. A house has been erected in Coffee, Ala., with roof and walls covered with cotton duck. The material is nailed to a smooth backing of plywood, plaster or composition board. It is painted with a mixture of white lead and linseed oil. The cost of such a house, including modern plumbing and electric wiring, is only about $1,350.

Happy Family

A big, happy family, all year round, are employees of the Central Vermont railway. A glance at the payroll roster reveals the names of Parent, Child, Relation and Friend. Then there are Summers, Winters, Rains, Snow, Fogg, Hails, Frost and Flood.

Book Wear and Tear

V. J. McHenry, who annually supervises the renewing of the 3,000 library books at the University of California, reports that it is always the first 20 pages of a book that suffer the greatest damage due to the efforts of students to concentrate on them. The middle and the end rarely ever have to be renewed.

Far From Capital

Amarillo, Texas, largest city in the Texas Panhandle, is nearer to the capitals of Colorado, Kansas, New Mexico, and Oklahoma, than it is to Austin, capital of Texas.

Florida's Edible Fish

Of the more than 300,000,000 pounds of fish caught in Florida waters annually, little more than one-third are of the edible variety, according to R. L. Dowling, state supervisor of conservation. The non-food fish, mostly menhaden and sharks, are used in the manufacture of fertilizers, oils and novelties, Dowling explained.

First Woman Decorated

Mlle. Kurtz, 24 years old, has the distinction of being the first French woman to receive the prized Croix de Guerre in the current war. She was wounded while on duty as ambulance driver.

New Spotlight

Having a special lens and a pre-focused 200 watt electric bulb, a new spotlight for amateur photographers is asserted to provide as much light as most 500 watt spotlights.

Very Exclusive

The order of the Colonial Lords of Manors in America, has but 425 members and is the most exclusive society in America. You must be a lineal descendant of the original colonies in order to qualify.

Movie Monopoly

Coatesville, Pa., is the only town in the United States where the Y. M. C. A. has a movie monopoly. Its only competitor was taken over about seven years ago. The town frequently sees first run pictures before Philadelphia or New York.

Vitamins Called Out For Health Defense

By BETTY BARCLAY

Draftee number 1 on the nation's food defense program is Mr. Vitamin. The daily glass of orange juice and the daily salad take on new importance in the light of our nation's need for better food for better national health.

Draft boards are finding young men unfit for service, often as a result of malnutrition. The nation's attention is centering again on this condition which came to light with the first World War.

It's up to the women in the home to help here, for they buy the food and plan the meals. The rule to follow is—be sure your food is giving you and your family an adequate supply of the elements needed, especially those vitamins which are not stored by the body but must be eaten every day.

One of these vitamins—vitamin B—is being added under government supervision to breads and other cereal products. Vitamin B is found naturally in certain other foods, such as oranges, yeast and peanut butter.

Vitamin C is another vitamin that the body does not store. Most important every day sources of this vitamin are the citrus fruits—oranges and lemons. These fruits are fortunately available every day in the year, for growers in California have discovered that the near-tropical climate of that state permits the growing and harvesting of these fruits all year 'round.

In the winter and early spring months, the Washington Navel orange comes to market. It is seedless and has a firm meat, easy to slice and section. In the summer there is the juiceful Valencia.

A large glass of orange juice served for breakfast furnishes one day's vitamin C defense. A salad is another delicious way of serving this fruit. Here are several salad recipes including a description of the one pictured.

Orange Prune Cheese Salad

Fill center of salad plate with a generous serving of orange slices. For these peel a large orange and cut in ¼-inch slices. Circle plate with 5 or 6 cooked prunes, stuffed with cottage cheese, and laid on leaves of crisp romaine or lettuce.

The prunes may be stuffed with peanut butter; or dates stuffed with cream cheese may be substituted for the prunes.

Serve with Lemon French Dressing made by blending: ¼ cup lemon juice, ¼ cup salad oil, 1 tablespoon honey or sugar; ½ teaspoon each salt and paprika.

With bread and butter and a beverage, such as milk, you have a complete luncheon or supper meal, packed with protective vitamins.

Orange Salad Combinations

Other popular orange salad combinations are:

Orange and Strawberries — Arrange a circle of orange slices on lettuce. Top each slice with a strawberry. Cherries or other berries may replace strawberries.

Orange Watercress — Arrange orange slices on bed of watercress. Top with sliced stuffed olives.

Gobery QUERY CORNER

1 SHOULD A ROAST BE COVERED?

No, the cover for a roasting pan can be put on the shelf with the moustache cup. A roast that is covered becomes a pot-roast, for the enclosed steam makes moist heat. Roasting is possible only with dry heat, so we add no water and use no cover.

2 HOW DO YOU GET CRISPY, BROWNED POTATOES?

DO 3 THINGS

Pare uniform, medium potatoes and parboil ten minutes; drain, place around roast and bake forty minutes (or until soft); turn often and baste with the meat drippings to brown. Delicious that way? They're called Franconia potatoes, when you want to be fancy.

China's shipments to the United States last year totaled $55,809,000.

Irish Railways

Irish railways are profiting by diversion of traffic from sea to land routes.

Longest River

The Mississippi-Missouri, generally considered one river by geographers, is the longest in the world. From the fountain-head of the Missouri, in the Rockies on the southwest border of Montana, its total length is 4,221 miles. From the source of its other branch at Lake Itasca in northern Minnesota, the so-called Mississippi proper is 2,553 miles long. The second longest river is the Nile, 4,000 miles from its remotest headstream, the Kagera, which flows into Lake Victoria. The Amazon river in South America has the greatest basin—2,772,000 square miles.

More Interest in Sports

Is interest in athletic affairs slackening because of the European war? Not if attendance at baseball games is any criterion. At the Yankee stadium this summer, 84,000 paid to see a game, the third largest crowd in baseball history. And in the Pacific Coast league, Seattle, until June 5, 1940, drew 27,000 more admissions than during the corresponding period in 1939, and Seattle led the league in attendance in 1939. It seems that people want to get away for a couple of hours from the war news in Europe and welcome the opportunity of going to the ball game or playing a bit of golf.

Sift Flour

Always sift flour once before measuring it and always lift it lightly into the measuring cup.

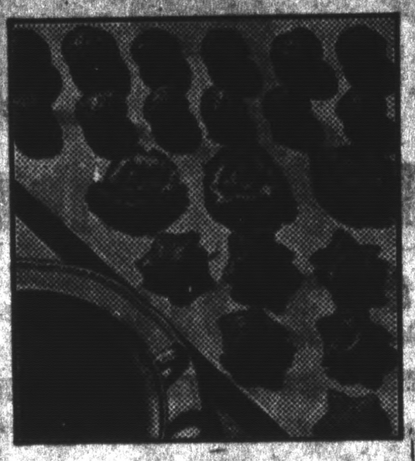
Savory Bites to Serve with Soup

by Dorothy Greig

"LITTLE SHOW-OFFS" is my own private name for these savory bites. I spring them on the family on special occasions such as birthday or holiday dinners. They're fun to make and even more fun to eat. And add a gala air to the serving of good, hot soup at any time.



Of course, they are marvelous for company dinners, too.

Toast Stars

Cut star shapes out of bread with star cookie cutters. Toast one side under broiler. Then spread the untoasted side with softened butter and toast that side a light golden brown under the broiler.

Pinwheels

¼ cup butter
¼ cup sharp cheese, grated
2 tablespoons chopped parsley
1 teaspoon prepared mustard
1 tablespoon catsup
1 teaspoon Worcestershire sauce
Bread slices

Cream the butter and cheese together, mix well and add the other seasonings. Slice the bread (preferably day old) about ⅛ inch thick. Spread generously with the cheese mixture. Roll like a jelly roll and fasten with toothpicks. Wrap in waxed paper and chill for ½ hour or longer. Just before serving, cut off in ¼ inch slices and toast under the broiler until a delicate golden brown. Makes 36 pinwheels.

Cheese Balls

¼ cup butter
¼ cup grated sharp cheese
½ cup dry bread crumbs
Yolk of one egg

Combine butter and cheese and mix until creamy. Then add bread crumbs and egg yolk. Form into balls about the size of a small marble. Roll in crumbs and fry in hot fat.

Our younger set calls for GRAVY

EVERY wave of small fry as it comes along over the years just naturally loves gravy—over bread, hot biscuits and cereal, fluffy mashed potatoes, or meat, over vegetables. Even grown-ups have been known to view with anticipation a big bowl of rich brown gravy on the dinner table.

But I know a thing or two about gravy I'm going to pass on to you. One is how to enrich the flavor and increase the quantity of pan gravy. This I call:

Savory Beef Gravy

2 cups browned beef gravy
1 can condensed mock turtle soup

Add the mock turtle soup to the browned beef gravy. Heat to the boiling point and serve. This gives about 4½ cups of gravy.

And next, believe it or not, it's possible to have gravy any time you want it whether you have meat or gravy from or not. It's done with condensed soups. This particular one is a deeply flavored beef gravy because the consommé and mock turtle soups are both made on a rich beef stock base.

Quick Gravy

2 tablespoons butter
2 tablespoons flour
1 can condensed consommé
1 can mock turtle soup
½ cup water

Melt the butter in a saucepan, add the flour and blend. Then add the consommé and ¾ can of water. Cook until thickened. Add the mock turtle soup and simmer 5 minutes. Strain before serving. Makes 2½ cups gravy.

AFTER THE EASTER PARADE

By BETTY BARCLAY

After the Easter parade comes what? Food! And plenty of it, at that. People get hungry even though their exercise is no more strenuous than airing Easter bonnets and colorful gowns. Here are some Easter recipes for those Easter appetites:

Magic Rhubarb Sherbet

½ cup (7½ oz. can) sweetened condensed milk
2 tablespoons lemon juice
2 tablespoons melted butter
1½ cup slightly sweetened stewed fresh rhubarb
2 egg whites

Mix sweetened condensed milk, lemon juice, melted butter and stewed rhubarb. Chill. Beat egg whites until stiff but not dry. Fold into chilled mixture. Freeze in freezing unit of refrigerator until half frozen. Scrape from freezing tray. Beat until smooth, but not melted. Replace in freezing unit until frozen. Serves 6.

Baked Ham Hawaiian

Bake ham according to manufacturer's directions, but finish it off the Hawaiian way by glazing it with a sirup made from canned unsweetened Hawaiian pineapple juice and honey, and serve it with a tangy pineapple juice—raisin sauce.

To prepare the glaze, combine three-quarters cup canned unsweetened Hawaiian pineapple juice, three-quarters cup strained honey, and one-half teaspoon dry mustard, bring to a boil and continue boiling until sirup is thick and falls from spoon in thick drops.

After the ham has been baked, remove from roaster to a clean shallow pan, skin and score. Spread with sirup. Return to a hot oven (450° to 475° F.) for 15 to 20 minutes or until surface of ham is golden brown. Place ham in warming oven while sauce is being prepared.

Pour drippings from pan in which ham was glazed into a saucepan. Skim fat off, if necessary. Add one tablespoon flour and stir until mixture is smooth. Add one cup canned unsweetened Hawaiian pineapple juice. Bring to a boil, add one cup seeded raisins and simmer for 10 minutes.

Baked Fish With Lemon

Rub lemon juice over fish to be baked, covering the inside as well as outside. Salt and stuff or not as desired. Put in well-greased pan, dot with butter and bake at moderate temperature until done (about 12 minutes to the pound). Serve garnished with parsley and lemon slices or quarters. These should be large enough, and plentiful enough to provide ample juice for flavor. Fish steaks may be baked in similar fashion. Rub both sides of steak with the lemon juice. Broiled or fried fish should be prepared by rubbing with lemon and served with lemon garnish.

Limas a la Francaise

2 cups cooked, dried Limas
2 tablespoons butter
½ teaspoon salt
⅛ teaspoon pepper
1½ cups milk
1 egg, slightly beaten

Place milk, Limas, butter and seasonings in a saucepan. When hot, add egg diluted with milk. Stir until thick.

Peach Ice Cream Tarts

1 box quick-frozen sliced peaches, thawed
8 baked 3½ inch tart shells
2 teaspoons lemon juice
1 tablespoon flour
3 egg whites
6 tablespoons sugar
1 pint vanilla ice cream

Drain peaches, reserving juice; arrange peaches in bottom of tart shells and sprinkle with lemon juice. Add peach juice slowly to flour, stirring until smooth. Cook until thickened, stirring constantly. Cool and pour over peaches. Beat egg whites until foamy throughout; add sugar, 2 tablespoons at a time, beating after each addition until sugar is blended. Then continue beating until mixture will stand in peaks. Cover peaches with hard ice cream. Pile meringue on top, being sure ice cream is well covered. Place under broiler 3 minutes, or until meringue is browned. Serve immediately.

All the fresh fruit treats of summer on a farm, as well as succulent vegetables and ocean resort specialties, are available all the year, wherever you live, if you use quick-frozen foods. Their fresh flavor and high vitamin content were sealed in by quick-freezing, to be released when you open the cartons in your own kitchen.

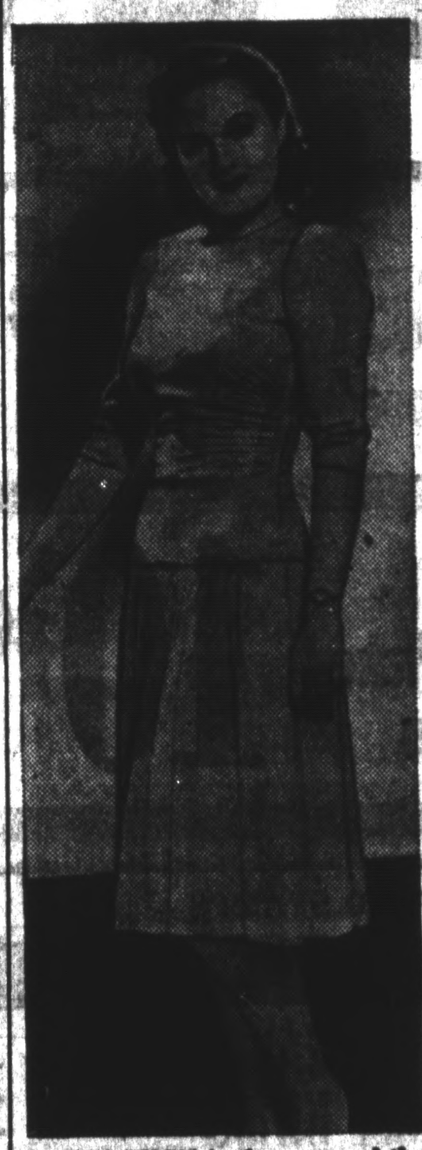
Coffee Cocktails

1 cup decaffeinated coffee, regular grind
4 cups water
4 heaping tablespoons whipped cream or ice cream
Cracked ice

Make the coffee by any desired method. Pour over cracked ice to cool. Put coffee and cream in cocktail shaker and shake well. Serve well chilled, in tall glasses. Serves 4.

You can serve these delicious cocktails generously because sleeping problems are non-existent if you use decaffeinated coffee. Remember that decaffeinated coffee, made by pot or percolator, calls for slightly longer brewing to bring out all the flavor.

Light hearted games are the most popular for spring parties. The most popular new diversion is Dig, an easy to learn game played with mystery picks and alphabet letters that comprise a gold mine. Winners get shares in mining stock and gold bricks.



NIP'N TUCK is the name of the smart mustard-colored frock worn here by Sharon Douglas, leading lady of Columbia network's "Second Wife" serial. Nipped at the waist, it reveals your svelte lines, and the tucked skirt gives a flattering fullness. Notice the rolled collar and below-the-elbow sleeves.

Equal Billing

George and Edward Shetler have succeeded in getting equal billing until the very last day of their high school career. Twin athletes and scholars, they co-starred in track, baseball and basketball for four years in Woodhull, Ill.

Alabama Homicides

Homicides are decreasing in Alabama. There were 29 less homicides in the state in 1939 than in 1938, the state health department vital statistics bureau reports.

Swedes First

The Swedes, coming from a log-house country, built the first log cabins in Delaware in 1638. The Pennsylvania Dutch and the early Irish later made them popular.

Museum for Youth

Since the modern youth section of the Illinois State museum was opened in Springfield recently, the usual "Hey, Mom, what's that mean?" approach of juvenile museum visitors is going out of use. For the new branch has been designed throughout to promote the imagination and to brighten the intellect of boys and girls by presenting natural history displays in a way comprehensible to them. Simple, uncrowded displays in specially made cases, together with simply worded labels, go a long way in this direction.

No Injury

Airlines of the United States flew 1,400,000 passengers in 1939 without an injury, and for the first time made money.

Regular meeting, D. C. F. D., Company No. 3, Westlake avenue.

8 p. m.—
Regular meeting, Rickey Roamerettes, 452 Capitol, S. F.

8:15 p. m.—
Regular meeting, Colma Vista Grande Aerie No. 1848, F. O. E., Eagles hall.

No Blackout

Failure to display tail lights on their baby carriages during the blackout cost four women four shillings (about 80 cents) each. They were fined in magistrate's court at Walsall, Staffordshire. The arrests were made after one of the carriages was hit by an automobile.

Horse Rider Guilty

It isn't always necessary to have 90 horsepower under the hood to drive in a reckless manner. A Boulder man had only a one horsepower vehicle under him when he drew such a charge. Riding a horse, he was accused of behaving so recklessly that two girls, walking in the road, were injured.

Proper Lubrication Prevents Repair Bills—Lasts Longer

Be good to your car. Just give us a ring at your convenience and we'll call for and deliver your car.

What's Newsin Cooking

by Gertrude Dent

Something to Crow About

ACCORDING to nature's calendar of production, the spring of the year is the season when our friend the hen lays more and better eggs.

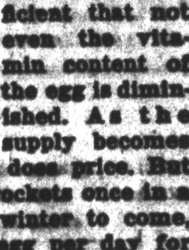
But we don't need to worry, these days, about a "season" for eggs, for modern methods of storing eggs in refrigerated warehouses are so efficient that not even the vitamin content of the egg is diminished. As the supply becomes more constant, so does price. But even if their cost rockets once in a while during the winter to come, try to allow one egg per day for your children as health insurance, whether you cook them "straight" or in a custard, egg sauce, or plain sponge cake.

For each egg is a fragile, tiny package filled completely with high-value food—every constituent necessary to build body-protein in an easily digestible form; vitally important minerals; and every vitamin in the alphabet with the exception of Vitamin C.

Eggs provide an especially rich source of Vitamin A—the growth vitamin which builds health and resistance to infections of the mucous membranes and respiratory tract; of Vitamin B, which is essential to the normal functioning of the nervous system and digestive tract; of Vitamin D, the indispensable sunshine vitamin we all must have in winter. No wonder doctors tell us eggs are not only "protectors" but also positive builders of health and well-being!

• • •

"You can't make an omelet without breaking eggs," says an old proverb. And if breaking eggs is a nightmare to you, try doing it this way: Break the eggs, one at a time, into a saucer or cup; remove the yolk with a tablespoon and slide the white into its proper bowl or saucer before breaking the next egg. This way, if you happen to break one yolk into the white, you won't ruin the other whites already separated.



• • •

Speaking of "making an omelet," here is a recipe for a fluffy omelet using cracker crumbs, which will prove a valuable addition to your menu files. It is irresistably cheap to begin with; the cracker crumbs take the place of an egg or two in this omelet; it is wholesome and tasty, and very, very good; and use of the cracker crumbs gives the omelet enough "body" so that you won't need to be afraid it will fall.

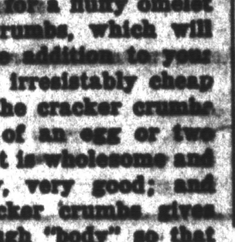
Cracker Omelet
(Serves 5-6)

¾ cup milk (scalded)
½ cup cracker crumbs
½ teaspoon salt
Dash of pepper
1 tablespoon butter
4 eggs (separated)

Pour milk over cracker crumbs, seasonings, and butter. Cool. Beat egg yolks until very light, and pour the milk and cracker mixture over them, stirring constantly. Beat egg whites until stiff but not dry, and fold into the first mixture. Pour into hot buttered frying pan. Cook slowly for 15-18 minutes, with the switch turned to fourth position. Place in modern oven, with electric thermostat set at 350°, for about 5 minutes, to dry the top. Cut part way through the center, fold, and slip onto hot platter.

• • •

No matter how you decide to cook your eggs, whether fried, or poached, or boiled, or in an omelet or souffle, a custard or a sauce—there is one "must." You *must* cook them slowly! That is why the modern electric range is such a boon to the woman who wants perfect results: because accurate electric temperature control means you can cook your eggs over such a low heat that there is no danger of scorching or "curdling," and no danger, either, of the low flame going out. You can even make custards without a double boiler, on the surface unit of an electric range.



The Hot Dish for a School Day Lunch

by Dorothy Greig

WHEN the youngsters swoop down on you at noon from school, there's that time-to-eat before them: big, steaming bowls of soup.

Soup is hot—and they should have a hot dish. It's nourishing, easily digested. And children never lose their zest for good soup.

From your standpoint, it's just about the perfect hot luncheon dish for it is quick and easy to prepare and serve. Just open the can, add water or milk as the case may be, and heat.

Tomato and Vegetable-Beef Soup

Hot soup leaves no heavy after feeling either. Yet it provides the quick energy a youngster needs to keep him alert for the afternoon's activities.

The recipe for the first soup given below offers a delicious blend of two soups: tomato—which all children love—and vegetable-beef, thick with little chunks of beef and vegetables.

Tomato and Vegetable-Beef Soup

1 can condensed tomato soup
1 can condensed vegetable-beef soup
2 cans of water

Combine and heat to boiling point. Garnish with toast croutons. Serves 5-7.

Soup, of course, is one of the best ways in the world to get more milk into a child's diet. Many a child who balks at drinking milk will take it in soups and pass happily back for more. For instance: here is a nourishing vegetable purée to which is added milk

Cream of Asparagus Soup

1 can condensed asparagus soup
¾ cup irradiated evaporated milk (just as it comes from the can)
¾ cup water

Empty the soup into a saucepan. Stir in the milk and water and heat, but do not boil. Serves 3-4.

Good All Year 'Round

Many of our most popular dishes are seasonable. We enjoy them while a certain fruit or vegetable is on the market; and then we must forget them for awhile.

You may have a recipe for a peach shortcake that is perfection itself. The actual shortcake may have brought you many words of praise from guests. But when important guests arrive, with no peaches obtainable, that particular recipe is of no use.

It's well to have a number of recipes for delicious dishes that may be prepared at any time — good all year 'round dishes. Then you are always ready to place a tested and tried dainty before your guests.

Here's a recipe for a dessert that is just as popular in January as it is in June — with one for a cherry sauce that is also an "all year 'round" possibility.

This healthful rennet-custard dessert calls for no eggs. No boiling or baking is necessary. Excellent for guests of any age, and practically perfect for a children's party.

Grape-Nut Rennet-Custard

2 cups milk (ordinary or homogenized)
1 pkg. vanilla rennet powder
½ cup Grape-Nuts
Cherry sauce

Set out 4 or 5 individual dessert glasses. Warm milk slowly, *stirring constantly*. Test a drop on inside of wrist frequently. When *COMFORTABLY WARM*, (120° F.) *not hot*, remove *at once* from stove. Stir rennet powder into milk briskly until dissolved — *not over one minute*. Add Grape-Nuts and pour at once, *while still liquid*, into the dessert glasses. Do not move until firm — about 10 minutes. Chill in refrigerator. Serve with Cherry Sauce and garnish with whipped cream and candied citron, if desired. Serves 4 or 5.

Cherry Sauce

¼ cup butter
2 tablespoons flour
1 cup red cherry juice
2 tablespoons lemon juice
2 drops almond extract
¼ cup sugar

Melt butter, blend in flour, add cherry juice and cook until sauce boils and thickens, stirring constantly. Add lemon juice, sugar and almond extract and chill. Serve on Grape-Nut Rennet-Custard.

The Perpetual Preparedness Program

By BETTY BARCLAY

The menfolk are getting a great kick out of their preparedness program. One would almost think they had discovered something new.

But the Boy Scouts have been following "Be Prepared" for over a quarter of a century and we women have had to be prepared since the original Adam said, "Eve! Have that mastodon steak ready at sun-down, or else!"

The female of the species has always had a preparedness program in the home. Breakfast must be prepared on time, day after day, month after month, and year after year. So must lunch and dinner. She has developed preparedness into a science. Measuring spoons, broilers, boilers, canned goods, bottled tasties and hundreds of common conveniences have been developed as aids to this universal, perpetual perfection, preparedness program.

Here are a couple of recipes for the great army of always-prepared women. They explain the preparation of tasty dishes that are healthful and economical. The cooked, dried Limas beans shown in the illustration now come in cans. They lend themselves to scores of dishes as delicious as those below. This concentrated food is rich in protein, carbohydrate and energy value, and is a valuable source of potassium, phosphorous, iron and calcium salts. Furthermore, dried Limas are exceptionally high in alkalinity. Try the following recipes as preparedness for company surprises:

Limas Creole

2 cups cooked, dried Limas
3 slices bacon
2 medium onions, sliced
1 green pepper, shredded
1 cup milk

Fry bacon, remove from pan, add onions and green pepper. Cook until tender. Place a layer of Limas in a buttered casserole, add a layer of bacon, broken in pieces, then a layer of onion and pepper mixture. Sprinkle lightly with salt. Repeat. Pour over milk and bake in a moderate oven. (350° F.) about 30 minutes.

Savory Limas

2 cups cooked, dried Limas
2 tablespoons minced onion
1 clove garlic, chopped (may be omitted)
1 tablespoon oil or butter
2 tablespoons minced green pepper
1 cup tomato sauce or strained tomato

Heat oil, add onion, garlic and green pepper; cook over a moderate heat 5 minutes; add tomato sauce and Limas. Simmer over a low fire until thoroughly heated, about 15 minutes.

Guard President

At President Roosevelt's party for Washington newspaper reporters, guests who had wandered to the south lawn had a queer sensation when they tried to get back into the Mansion and found the doors locked. Peering through the windows, they saw that the brightly lighted Red room, the Blue room and the Green room had been suddenly emptied. Before long, a secret service aide came to explain. The rooms had been cleared to allow President Roosevelt to pass through to his private elevator. Just part of closer guarding of the President since the war has become worse.

Human Head Sacred

In the Fiji Islands, the human head is held to be sacred and it is an insult to reach above the head of another person. Women in consequence crawl on their hands and knees when men are at leisure inside a house. Persons who have been insulted are likely to commit suicide to eradicate the shame.

Mere Space

If there is too little wall space to arrange furniture attractively, a door which is not absolutely essential could be permanently locked and covered with an appropriate wall hanging. Or if the room is to be repapered, the door might be blocked in with a plywood panel and papered.

Clothing in Germany

Clothing is being made from fish skins in Germany.

Home Work

Since the invasion of Holland and Belgium, members of the senate committee handling army and navy affairs have taken to holding off-the-record evening meetings in each other's homes to brush up on the facts about Uncle Sam's defenses, with high United States military experts invited in as "teachers." The speed with which the senate has acted on national defense measures is taken as evidence that the senators are apt pupils and learn fast.

Too Shy

Fred Kral, 73 years old, is "too shy and embarrassed," according to his 64-year-old bride, of Cleveland. So, Mrs. Kral freely admits, she not only did the proposing, but also reversed the usual process by bestowing a kiss on the blushing bridegroom at the end of the ceremony.

Use Sink Stopper

In dry Oklahoma, sink stoppers can be part of a police officer's equipment. When Lieut. V. O. Webb and two other officers raided a home a woman emptied a dishpan of liquid into the sink. Webb quickly stoppered the sink, drained and siphoned out a quart of what he says was whisky. He was carrying the stopper in his pocket.

Heaviest

"Babe" Connaughton, 260-pound guard on the Georgetown eleven of 1909, probably was the heaviest college football regular-player.

China Elephant

Dr. William W. Christley, Corydon, Ind., dentist, found a tiny china elephant in the debris of the 1937 Ohio river flood. He kept it. Since then, he has collected more than 700 toy elephants, big and little, in every kind of material from ivory to sponge. He keeps them in his office.

Perseverance

Perseverance conquers, John E. Morris believes. Morris wound up in a 608-608 tie for the Democratic nomination for city council at the primaries in Salisbury, Md. "Well," he commented as officials planned a recount and possibly a special run-off election, "last year I lost by a single vote."

Girl Bull-Fighter

Whirlwind attraction in the bull rings of Peru, Portugal and Mexico City is 17-year-old Conchita Cintron, declares the American Magazine. She already has 32 victories to her credit. Conchita spent most of her childhood training to be a bull-fighter.

Geniuses Were Dull

Most of the world's geniuses were not bright children, but were quiet, dull, or shy, according to Dr. George Stetson of Carnegie Institution of Washington, recognized as the leading historian of science.

Testing Tires

A machine has been invented to test the durability of automobile tires by subjecting samples of their material to twice the number of impacts to which the tires would be subjected in use.

Woman Speaker

For the first time in its 74-year history the University of New Hampshire will have a woman commencement speaker. She is Dr. Lillian M. Gilbreth, consulting engineer.

Just a Huffy-Puff is this easy SOUFFLE

Dorothy Greig

WHEN mother wanted to imply that a certain thing was simple to do she'd say, "It's as easy as rolling off a log." And that is just the way it is with this souffle.

It has but three ingredients. Once they're mixed and in the oven, the souffle does the rest. It huffs and inches its way up until it is big and puffy and light.

When done, whip it from the oven and serve immediately while it is still proudly high and tender. With it offer fresh green salad, and there you have as delicious a main course for lunch or supper as ever you could wish.

Asparagus-Cheese Souffle

1 can condensed asparagus soup
¾ cup sharp cheese, grated
4 eggs, separated

Combine the grated cheese and the asparagus soup and heat until the cheese is melted. Then stir in the egg yolks, adding one yolk at a time and beating well after adding each yolk; then cool. Beat the egg whites until stiff, but not dry. Fold the asparagus mixture into the beaten egg whites. Pour into a buttered casserole; then place the casserole in pan with hot water. Bake in 300° oven for 1 hour to 1 hour and 15 minutes. Serve immediately. Serves 6.

Dixie Named

A New Orleans bank was responsible for the popular term "Dixie," applied to the land below the Mason-Dixon line. Henry E. Elrod, Houston engineer and numismatician, said the Citizens bank of New Orleans was the originator, through its 10 piastre notes. The notes were issued in 1852, printed half in French and half in English. On the face of the note was the word "Ten" and its corresponding French word, "Dix." Southerners called the bills "Dixie." In those days, states issued their own money and much of it was almost worthless. The New Orleans bank was in prosperous condition, however, and the bills spread over the southland, which gradually became known as the land of the "Dixies," and finally, Dixieland.

Long Ticket

Prof. Grosvenor Robinson of Bates college has begun an 8,000-mile bus tour of the United States. It took an entire afternoon to make out the 15-foot long bus ticket that will take him on his vacation, a substitute for a European tour.

Mrs. Lombard Chairman For Whist

Mrs. Victorine Lombard, well-known member of Hillcrest Circle No. 143, U. A. O. D., is chairman of the monthly whist to be held, Monday evening, April 14, at Masonic hall. She issued a cordial invitation to all local whist players today.

"You may be sure of an interesting evening and many attractive prizes, including three cash prizes," said Mrs. Lombard.

Playing will begin at 8:30 p. m. In addition to the whist, a beautiful quilt, made by members of Hillcrest circle, is to be awarded.

Members of Hillcrest circle will attend a business meeting at 7 p. m. before the public whist.

60 Per Cent

Passengers now account for 60 per cent of the income of the air lines of the United States.

Traveler's Aids

This bag and shaving kit have features which will endear them to the fastidious traveler. Both are lined with a lightweight silk treated with the synthetic, Koresteal, which is impervious to spotting and staining as well as being waterproof. The traveler possessed of such luggage can laugh at accidents involving spilled lotions and creams.

Teaches With Films

Pant Pratinidhi, Rajah of Aundh, India, teaches his people with educational films and has made deep breathing exercises in schools compulsory.

Slow Airplane

The United States army has developed an observation airplane that can rise into the air in short space starting a flight and stop within 100 feet of alighting.

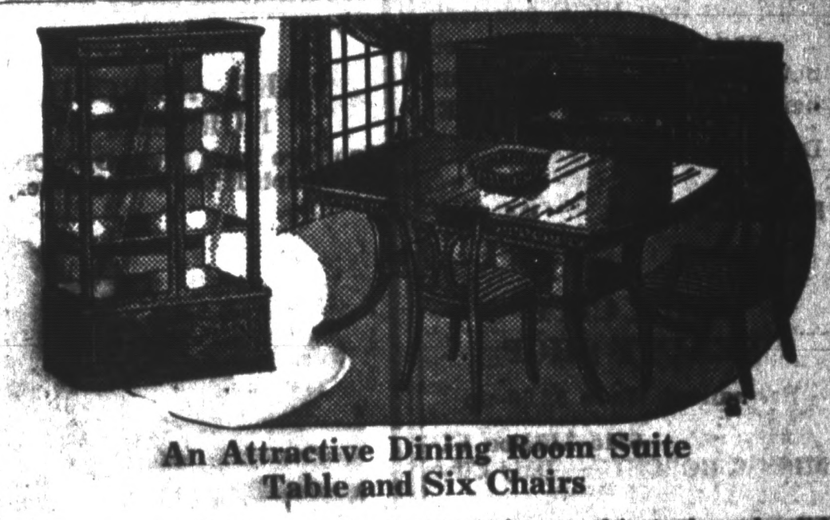
WANT TO SAVE MONEY ON FURNITURE?

Eddie Allen, proprietor of Daly City Mattress and Upholstering Company, has recently taken over a local agency for LANGCO FURNITURE COMPANY. Mr. Allen invites you to come in and see what truly lovely furniture, including all the new modernistic and popular period styles, Langco builds and sells at "just above wholesale" listings.

Thrillingly Beautiful 18th Century Suite
—Wood Frame Sofa and Chair

A masterpiece of gorgeous beauty is this graceful, 18th century davenport with matching chair. Both pieces have genuine mahogany exposed frames, hand carved for extra beauty. Custom upholstered in brocatelles or damasks.



An Attractive Dining Room Suite
Table and Six Chairs

An extension table and six chairs make up this truly splendid dining room suite, priced temptingly low. Hand rubbed table top . . . damask seat chairs of graceful design.

ABOUT LANGCO FURNITURE

Langco is the only showroom in Northern California that builds its own upholstered furniture.

Its reputation has been established over the last 20 years as manufacturer of the finest furniture. Langco makes a complete line of modern, 18th Century and French pieces. Furnishes customers a full display of home furnishings—upholstered pieces, breakfast, dining room, and bedroom sets; occasional pieces, rugs, lamps, drapes, etc.

POCKETS PINNED on at the shoulder and below the waist are a novel feature of this Elinor Hankins' original model worn by Delma Byron, of Columbia network's "Our Gal Sunday." It is of wine color silk jersey with the pockets lined in emerald green wool. Pins to match the garnet buttons are used to pin the pockets in place. Her green felt hat with turned back flared brim is perfect for the ensemble.

Soundproof Clubs

Miami Beach night clubs must be both soundproof and air-conditioned, under a city ordinance.

Try A Snickerdoodle

By Frances Lee Barton

WHEN you serve a snickerdoodle
You'll please every Yankee Doodle.
Not much larger than a noodle
But for flavor its sublime.
Cut in squares it's real delicious.
Number one among the dishes.
Answers all the family's wishes.
Excellent at any time.

Snickerdoodles

½ cup sifted cake flour; ½ teaspoon double-acting baking powder; ⅛ teaspoon salt; 5 tablespoons butter, melted; ½ cup sugar; 2 eggs, well beaten; ¼ teaspoon vanilla; 2 tablespoons sugar; ¼ teaspoon cinnamon; ½ cup finely chopped walnut meats.

Sift flour once, measure, add baking powder and salt, and sift again. Mix butter and sugar, add eggs and vanilla, and mix lightly. Stir in flour. Turn into greased 8 x 8 x 2-inch pan. Combine sugar and cinnamon and sprinkle over top. Cover with chopped nuts. Bake in moderate oven (375° F.) 25 minutes, or until done. Cut in squares and serve warm or cold.

Animal Footprints

In bounding animals, such as rabbits, the hind feet register ahead of the front ones. One forefoot registers in front of the other, and the two large tracks made by the hind feet are placed side by side, beyond the smaller prints.

NDGW Drum Corps Sponsors Dinner

Do you like food cooked in the tradjitional deep-South style, delicious and tantalizing Baked Virginia ham? Then, you have a date.

The drum corps of El Carmelo Parlor No. 181, Native Daughters of the Golden West, are sponsoring a dinner party, Wednesday evening, April 16, at 6:30 p. m. Everybody in town is invited and the drum corps members assure a fine full-course dinner and lots of fun. Included in the price of the dinner tickets, which are nominal in price, is admission to the whist which will follow the dinner. Anyone unable to attend the dinner, may pay the regular score card charge and attend the whist.

The drum corps of El Carmelo Parlor is well-known throughout the Bay area and the entire State. They have won many trophies in the past. They ask the cooperation of the public for their dinner. All proceeds will go toward new uniforms for this talented group. Tickets are now on sale.

Rayon Yarn

Rayon yarn produced in Japan in 1939 weighed 228,740,800 pounds.

Women Emancipated

In dry Uzbekistan, where much of the Soviet Union's increasing cotton supply is produced by the aid of irrigation, some three-quarters of the population is made up of Uzbeks, with minority groups of Tatars, Tajiks, Cossacks and Russians. Today—in a country where wives were once bought for so much rice—women are now reported to account for one-third of the industrial workers, many of them skilled as machinists and tractor operators. Others have become teachers, actresses and physicians.

Ancient Decorations

Shell, crystalline spar, bone and ivory were all employed by the ancients for architectural decoration. On these hard substances, the colorists could produce excellent designs. The thin film of color, however, was not durable—it soon wore away and light places showed through. Since those days, modern methods of decoration include certain mordants to set the colors and the steeping of small articles made from such dense substances in a dye bath for several hours.

Withdraw Autos

Private automobiles and buses were withdrawn from use in Denmark because of severe gasoline rationing. It was estimated 60,000 vehicles were affected.

First Dog Shot

Bobby, an Alsatian dog attached to a crack French Zouave regiment as a messenger, was the first dog to be shot by the Germans on the Western front, according to a report received in Paris. His body was recovered and was buried with the following epitaph: "Here lies Bobby, a messenger dog, who fell on the field of honor while rendering service."

Dog Stays On

Frank Brusewitz has retired as station agent for the Great Northern railroad here but his faithful dog, Terry, carries on. Terry reaches the station every morning at 7:30 o'clock, meets all passenger trains and then trots to the post office and bank—a routine he followed with his master for years.

'Jim Crow' in Warsaw

The South, in these good old United States is not the only place where "Jim Crow" streetcars are in operation. They have been installed in Warsaw, one compartment for Germans and the other for Poles and Jews. The reason—"spotted typhoid being prevalent among Poles and Jews."

German Speaking Swiss

The German language is spoken by a majority of the people in 16 of the 22 cantons in Switzerland.

No Log Cabins

Although most American illustrations picture them in log cabins, the late Harold R. Shurtleff, in the Log Cabin Myth, published by Harvard University Press, states that there were no log cabins in early New England or Virginia. They built frame houses.

Hot Handle Holder

Made of a heat insulating, non-absorbent rubber, a holder has been invented to be slipped over the hot handles of cooking utensils.

AMERICAN HISTORY BEGAN WITH A PILGRIM WASHLINE THAT HAS GROWN STEADILY LONGER AND WHITER, RAISING WORKER STANDARDS OF SOAP MANUFACTURE AND THE INVENTION OF MANY LABOR-SAVING DOMESTIC APPLIANCES.

Try Lemon-Buttered Cabbage with Corned Beef

By BETTY BARCLAY

In lemon-buttered cabbage, served with corned beef, we have an old favorite with a new glamor. Here, as with many other vegetables, lemon "points up" the flavor. In fact, lemon juice is a seasoning for vegetables that should never be omitted. If it is not used in the cooking, it should be provided by a garnish. A dish of juicelul lemon quarters is as important a table accompaniment for vegetables as the salt and pepper shakers.

Cut a small head of cabbage in eighths. Place in a large kettle of boiling salted water. Let water boil up again. Cook uncovered 3 to 10 minutes.

Have a piece of corned beef boiled until tender or use the time-saving canned corned beef. In this case, remove corned beef from can and slice. Place slices in a strainer or sieve and let steam until hot over boiling cabbage.

Arrange on hot serving plate with slices of corned beef and season with ¼ cup melted butter blended with 3 tablespoons lemon juice. Garnish with lemon slices and plenty of practical juice-providing lemon quarters for more of the lemon flavor.

This lemon butter is delicious with many other vegetables, including cauliflower, broccoli, Brussels sprouts, artichokes, asparagus, spinach and other greens.

To keep cauliflower white, boil in water to which lemon juice has been added (2 tablespoons to 1 quart). In cooking artichokes, add 2 slices of lemon for each artichoke. It enhances favor.

The oldest licensed car in the state of Connecticut is a 1908 model.

Wild Rice

Wild rice contains 14.6 per cent protein, 9.3 per cent moisture, 2 per cent sugars, 1.5 per cent ash, 1.1 per cent fiber and small amounts of fat, phosphorus, potassium, magnesium, sulfur, calcium and chlorine, says the American Chemical society. The process of parching the seed, introduced by the Indians to facilitate removal of the hulls, reduces appreciably the content of fat, fiber, protein, total ash, magnesium, potassium and phosphorus. In a special test it was found that the vitamin B, content of three samples of wild rice seed averaged 1.67 international units per gram, whereas the average of the same three samples when parched was 1.30.

Family Cowpunchers

"Packsaddle" Ben Greenhough of Red Lodge, Mont., claims to have the horse-ridingest family in the United States, declares the American Magazine. His two sons and two daughters go the rounds of about 25 rodeos every year, and consistently rope in the championship prizes.

Silver Lining

War has a silver lining for 24,000 who were on relief last winter in St. John's, Newfoundland, its great newsprint and its wood-pulp and mine-prop industries have been revived with the closing of the Baltic. Iron, lead, and zinc mines are again operating, while enlistments in the navy, army and civilian forestry corps have also helped to reduce unemployment.

Father of Clipping

Robert Luce of Waltham, Mass., is the founder and president of one of the largest press clipping bureaus in the country. He coined the phrase, "clipping bureau." One of his first customers was John Wanamaker. He recently told the house in Washington that the government was paying far too much for its clipping service.

Busy Stork

Joshua Jenkins received a letter from his twin brother, Jonathan of Grand Rapids, Mich., announcing the birth of a son. Joshua just had mailed a similar announcement to Jonathan.
